Progress Report No. 51
January 1, 2011 to January 31, 2011

Remedial Investigation and Feasibility Study
Former Plainwell, Inc. Mill Property
Plainwell, Michigan

This progress report is being submitted to the United States Environmental Protection Agency (U.S. EPA) in accordance with Task 8: Progress Reports and the Schedule for Major Deliverables contained in the Statement of Work for the Remedial Investigation/Feasibility Study (RI/FS), pursuant to the terms of the Consent Decree for the Design and Implementation of Certain Response Actions at Operable Unit No. 4 and the Plainwell, Inc. Mill Property (Site) Operational Unit No. 7 of the Allied Paper, Inc./Portage Creek/Kalamazoo River Superfund Site (Consent Decree), which became effective February 22, 2005.

1. Work Performed

- Continued development of RI report and design of base map showing Phase II RI and Supplemental Phase II RI sample locations and relevant Site features
- Conference call on January 4, 2011 with representatives from the U.S. EPA, the City of Plainwell, and Weyerhaeuser Company to discuss alternative mechanisms for performance of activities in an interim capacity prior to issuance of the ROD, the cost for using steel plates as an alternative to cover the coal tunnel during construction activities, and U.S. EPA comments on the Fannie Pell Park Bridge Footing Soil and Groundwater Investigation Work Plan
- Submitted Revised Fannie Pell Park Bridge Footing Soil and Groundwater Investigation Work Plan to the U.S. EPA on January 5, 2011, with subsequent written approval received for implementation from the U.S. EPA on January 10, 2011
- Implementation of the Fannie Pell Park Bridge Footing Soil and Groundwater Investigation Work Plan on January 18, 2011
- Collection of waste characterization samples from solid investigation derived waste (IDW)

2. Data Received

- Portions of the data from the Phase II RI sampling activities conducted in January/February 2010 have been received and are undergoing quality assurance/quality control validation. Receipt of remaining data is anticipated for early February 2011, which will undergo quality assurance/quality control validation. The data will be tabulated and provided in future progress reports once this process is complete.
- All data from the Supplemental Phase II RI sampling activities conducted in May/June 2010 have been received and are undergoing quality assurance/quality control validation. The data will be tabulated and provided in future progress reports once this process is complete.

**3. Modifications to Work Plans or Other Schedules
Proposed to, or Approved by, the U.S. EPA**

- Weyerhaeuser Company will update the project schedule and submit to the U.S. EPA on a quarterly basis, beginning with the March 2011 progress report.

4. Problems Encountered and Planned Resolution

- None

5. Work Anticipated During the Next Reporting Period

- Continue quality assurance/quality control validation of January/February 2010 and May/June 2010 laboratory analytical data as it is received
- Continue work on RI Report
- Completion of appropriate disposal of remaining solid IDW
- Initiation of development of Technical Memorandum summarizing the implementation and results of the Fannie Pell Park Bridge Footing Soil and Groundwater Investigation
- Initiation of development of Technical Memorandum summarizing information related to the Coal Tunnel Area of the Site

6. Anticipated Development with Work during the Next Period

- None

7. Other Relevant Information

- None
